

19 January 2018

To whom it may concern,

We have known Reuben Christman since February 2016 when he came to Bayswater Primary School as the Music Specialist. From December 2016 Reuben has also been privately tutoring our son (Ethan) in Trumpet.

We have found Reuben to be an enthusiastic, kind and well received teacher. He was extremely popular with the students at Bayswater Primary School and will be thoroughly missed by all.

In particular it was noted amongst parents how Reuben encouraged and grew the School Choir, taking them on excursions to perform giving the children a sense of pride and accomplishment that many had never felt before.

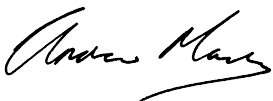

Reuben has inspired our son Ethan in his trumpet playing and provides a safe, secure and adaptable learning environment in a style that has seen Ethan grow in confidence not only in music but other areas.

Reuben was very well received by the parent community at Bayswater Primary and developed a reputation for being both honest and approachable. As testament to this, the Parents and Community have elected to allow Reuben to advertise his services for private tuition on the P&C homepage as a way of thanking him for his service to the community and continuing the connection to both the kids and school.

We and other parents we know trust Reuben implicitly, both on school grounds and at his own home. He has afforded new opportunities to our children and inspired excitement and dedication in Ethan that we are very grateful for.

We have no hesitation in providing a personal recommendation for Reuben and wish him well in his future endeavours.

Best regards
