I am an adult learner who have been taking online class for piano practical high grade-Trinity syllabus for two months with Mr Kwan. I am a piano teacher. I teach piano beginner. I am looking to upgrade my qualification to higher grade before I take Mr Kwan lesson. His online lesson match my lifestyle, because I am busy and do not have time to travel to music center for piano lesson, I am glad to have online piano lesson to ease my burden to travel long way to music center. He is knowledgeable and will tell the story of the music score I am going to work on, help me to analysis the score for better music interpretation. He is generosity in extra lesson time given to me in his teaching. Song books/learning material given to me is good and organized.
